http://hazardbio.com/work

Summary

I am able to communicate with clients, management and/or analysts to translate requirements into successful applications delivered on time. I like working in small teams and I like to develop in small iterations for fast feedback from the client to keep the project on track.

Specialties

Languages: Ruby, C#, SQL, XML, XSLT, VB, Javascript, HTML, CSS

Frameworks: Ruby on Rails, .NET

Databases: SQL Server, Oracle, MySQL, Sqlite

OS: Mac, Windows, Linux
